

www.schlaraffia-international.com

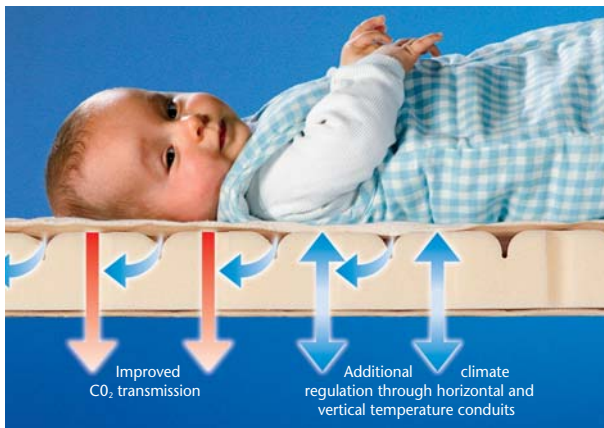

In their first year of life, babies spend half of their day in bed. The importance of having the sleep environment arranged correctly can therefore not be overestimated. With the Baby & Toddler Collection, SCHLARAFFIA has developed a mattress system that can make a significant contribution to the child's well-being. Therefore, SCHLARAFFIA has been consulted by the GEPS-NRW Registered Association*. Compared with identical mattresses without a temperature system, it promotes air circulation and reduces the danger of overheating. Has been shown to improve CO₂ transmission, meaning that the risk factor for breathing back in CO₂ can be reduced for a baby.

Reversible mattress

Breathable, moisture regulating cell structure, similar to that of natural sponge.

Core type:

Semi-firm mattress BÜLTEX® core, with stable layers and vertical air ducts. On one side, there is an additional horizontal climatic structure for a baby's first months.

Core height: approx. 7 cm

Cover:

Exclusive, removable cover with Panthenol finish. Specially designed for sensitive skin.

Fine padding quilted with the cover:

Hygienic, highly elastic Aqua Luxe hollow fibre for optimal temperature maintenance. Removable cover with 4-sided zip, washable up to 60° C. Suitable for those suffering from dust mite allergy. Overall mattress height: approx. 10 cm

Drill ticking design : 939

Textile description : 32% CO, 30% PES 38% PA

Available in sizes 60 x 120 and 70 x 140 cm.

* According to the guideline from the GEPS-NRW Registered Association – a parents' self-help organization for SID (Sudden Infant Death) – and the Academy for Child and Adolescent Medicine Registered Association – a baby should never be put to sleep on their stomach, and no sheets should be used. Further important information about the optimal sleeping environment for babies has been published in the brochure, "The Optimal Sleeping Environment for Your Baby", distributed by the GEPS-NRW Registered Association with SCHLARAFFIA's friendly support.
